### **Recent developments**

The following is a brief summary of key recent developments involving or affecting the Company:

- On February 19, 2025, the Company announced the results of three holes for 2,793m of drilling at the Wawa Gold Project. The drilling results confirmed the extension of gold mineralization in both the Jubilee & Minto Shears considering large step out drilling of over 100m. These initial drill results defined gold mineralization outside of the MRE in the faulted southern extension of the Jubilee Shear.
- On March 20, 2025, the Company announced gold assay results from four drill holes for 1,487m of assayed drill core. Step-out drilling at the Jubilee Shear intersected 5.68 g/t Au over 10.72m, including 19.05 g/t Au over 2.00m, which was 600m down plunge from previous drilling. Near surface drilling at the past producing Parkhill Mine, located in the Hanging Wall of the Jubilee Shear, intersected 6.49 g/t Au over 1.11m more than 300m from the historical workings and confirmed the continuity of gold mineralization for future drilling.
- On May 8, 2025, the Company announced that it was evaluating the potential of developing an early-stage open pit operation at the Wawa Gold Project. The Company announced that it was refocusing a component of its drilling program to evaluate a potential open pit operation in two areas in the Jubilee Shear with approximately 8,500m of drilling planned over a 3-month period.
- On May 12, 2025, the Company announced the initial results of this near-surface drilling program. The Company announced near-surface intersection of 14.51 g/t Au over 4.81m, including 90.40 g/t Au over 0.67m at the edge of the MRE within an area for consideration for a potential open-pit operation. Several high-grade gold intersections > 5.00 g/t Au at depth in the Jubilee Shear located hundreds of meters away from the MRE, which are indicative of the potential for future growth to the mineral resource.
- On June 18, 2025, the Company announced further results of this near surface drilling program at the Wawa Gold Project. The Company announced 45.38 g/t Au over 3.13m core length, including 141.00 g/t Au over 0.88 m in hole SD-25-559 and near-surface intersection of 1.86 g/t Au over 19.09m including 4.28 g/t Au over 4.88m in hole SD-25-544. - 109.00 g/t Au over 0.86 g/t Au in historical hole U0590L3 from unsampled historical core; and
  - 176.00 g/t Au over 0.78m in hold SD-16-15 that is located on strike from hole SD-25-559.

### How will we use the available funds?

Description of intended use of available funds listed in order of priority.	Assuming minimum Offering only.	Assuming 100% of the Offering.	Assuming 100% of the Offering as well as the Exercise in full of the Agents' Option
Exploration drilling	\$0	\$5,345,000	\$5,345,000
Existing Qualifying Expenditure Commitments	\$496,567	\$496,567	496,567
Permitting and Technical Studies	\$0	\$3,328,000	\$3,328,000
Community Consultations	\$0	\$1,100,000	\$1,100,000
Working capital and general corporate purposes	\$5,782,433	\$2,589,433	\$4,140,433
<b>Total available funds:</b>	<b>\$6,279,000</b>	<b>\$12,859,000</b>	<b>\$14,410,000</b>

The above noted allocation represents the Company's current intentions with respect to its use of proceeds based on current knowledge, planning and expectations of management of the Company. Although the Company intends to expend the proceeds from the Offering as set forth above, there may be circumstances where, for sound business reasons, a reallocation of funds may be deemed prudent or necessary and may vary materially from that set forth above, as the amounts actually allocated and spent will depend on a number of factors, including the Company's ability to execute on its business plan and sustain its operations for not less than 12 months from the Closing Date of the Offering.

The most recent audited annual financial statements and interim financial report of the Company included a going-concern note. The Company is still in the exploration stage and the Company has not yet generated positive cash flows from its operating activities, which may cast doubt on the Company's ability to continue as a going concern. The Offering is intended to permit the Company to advance the Wawa Gold Project based on the recommendations of the Technical Report, and maintain its ownership of the Wawa Gold Project and is not expected to affect the decision to include a going concern note in the next annual financial statements of the Company.

### How have we used the other funds we have raised in the past 12 months?

On July 9, 2025, the Company closed the July 2025 Financing of a sale of: (i) 55,000,000 non-flow-through units; (ii) 12,500,000 flow-through units; and (iii) 10,714,284 charity flow-through units, for aggregate gross proceeds to the Company of \$8,500,000. The Company sold a total of 42,664,284 shares and 21,332,142 warrants pursuant to the Listed Issuer Financing Exemption and the remaining securities were sold pursuant to other available exemptions in the July 2025 Financing.

The net proceeds from the sale of flow-through common shares and charity flow-through common shares in the July 2025 Financing were used by the Company to incur Qualifying Expenditures related to the Company's Wawa Gold Project in Ontario. All Qualifying Expenditures were renounced in favour of the subscribers of the flow-through units and charity flow-through units effective December 31, 2025. The net proceeds from the sale of the non-flow through units in the July 2025 Financing were used by the Company for working capital, general corporate purposes, and the evaluation of the potential for future open pit production at the Wawa Gold Project, including technical studies and permitting.
